

# GiNRE - Waste-Free Providers

## Garbage-free Retailers of Renewable Energy and Carbon Offsets

[Download this document as a PDF](#)

This list provides a selection of renewable energy certificate (REC) and carbon offset retailers who do not use landfill gas as of September 2007.

When purchasing renewable energy certificates (REC) or carbon offsets, be sure to ask your provider about their energy mix. Ask specific questions about what projects are included, how often this changes, and whether your provider supports energy generated from landfill gas or waste incineration. Choose providers that support new projects that would not have happened otherwise and look for providers who are independently verified to ensure your RECs and offsets are not double-counted or resold.

Company Name	Website	Power Source
Basin Electric Power Cooperative	<a href="http://www.basinelectric.com">www.basinelectric.com</a>	100% wind
Bonneville Environmental Foundation	<a href="http://www.b-e-f.org">www.b-e-f.org</a>	100% wind; 100% solar; and 90% wind/10% solar*
Calpine Corporation	<a href="http://www.calpine.com">www.calpine.com</a>	100% geothermal
Choose Renewables	<a href="http://www.chooserenewables.com">www.chooserenewables.com</a>	CleanWatts: 100% wind
Clean and Green	<a href="http://www.cleanandgreen.us/map.php">www.cleanandgreen.us/map.php</a>	100% wind
Community Energy Inc.	<a href="http://www.newwindenergy.com">www.newwindenergy.com</a>	100% wind
Conservation Services Group	<a href="http://www.climatesave.com">www.climatesave.com</a>	ClimateSave: 100% wind and solar**
Maine Interfaith Power & Light	<a href="http://www.meipl.org/">www.meipl.org/</a>	Wind Watts: wind projects in Maine
Massachusetts Energy Consumers Alliance (Mass Energy)	<a href="http://www.newenglandwind.org/wind/home.php">www.newenglandwind.org/wind/home.php</a>	Wind projects in New England
MidAmerican Energy	<a href="http://www.midamericanenergy.com/wind">www.midamericanenergy.com/wind</a>	Wind projects in Iowa***
NativeEnergy	<a href="http://www.nativeenergy.com">www.nativeenergy.com</a>	Wind, solar, and wastewater and animal waste methane

PPM Energy	<a href="http://www.ppmenergy.com">www.ppmenergy.com</a>	100% wind power blocks
Premier Energy	<a href="http://www.premiereenergyonline.com">www.premiereenergyonline.com</a>	100% wind
Renewable Choice Energy	<a href="http://www.renewablechoice.com">www.renewablechoice.com</a>	100% wind
SKY Energy, Inc.	<a href="http://www.sky-energy.com">www.sky-energy.com</a>	100% wind
Vision Quest	<a href="http://www.visionquestwind.com">www.visionquestwind.com</a>	Wind projects in Canada
Waverly Light and Power	<a href="http://wlp.waverlyia.com">http://wlp.waverlyia.com</a>	Wind projects in Iowa
WindCurrent	<a href="http://www.windcurrent.com">www.windcurrent.com</a>	WindPower 10R: wind projects from the Mid-Atlantic region
WindQwest Energy	<a href="http://www.windquestenergy.com">www.windquestenergy.com</a>	100% wind

- \* small percentage farm methane projects
- \*\* previous offerings of Greener Watts New England did include landfill gas
- \*\*\* future projects will be determined by customer interest and participation

*GRRN does not endorse specific companies or products. This list will not be maintained, and companies may change their policies in the future. This should not be considered a comprehensive list.*
